ROYTHORNES
solicitors

BACKGROUND

Roythornes Solicitors head office is based in Pinchbeck, Spalding, Lincolnshire. The business is housed in a relatively new build modern office and they were considering the merits of improving energy efficiency by installing LED lighting and approached BEE for support quantifying the benefits of doing so.

ACTIONS

During a site visit from a BEE advisor, it was determined that the existing lighting consisted predominantly of T5 fluorescent fittings dating from the original build of the Pinchbeck office in 2008. It was identified that a significant carbon reduction would be possible by retrofitting LED lighting throughout the building.

RESULTS

Roythornes secured a grant of £6,876 that enabled the business to invest £27,500 in the lighting upgrade project. Roythornes are set to make estimated cost savings of up to £5,000 per annum, and carbon savings of 13.5 tonnes. The LED lighting has also created a much-improved working environment for the staff.

COST SAVING	CARBON SAVING	GRANT RECEIVED
UP TO £5,000	13.5 TONNES	£6,876

"Roythornes were guided through the application process by BEE and given support prior to and during the project. Being awarded the grant allowed Roythornes to undertake the project allowing us to achieve immediate carbon and financial savings together with providing an improved light quality for our staff"
